The instructor will familiarize you with the structure of your body called fascia that houses your muscles (myo), and help you to utilize tools to release restrictions in that structure that can cause misalignment, compensation patterns, aches and pains, and loss of range of motion to name a few. This class will help open up space in your structure so the systems within can work as they are meant to. You will leave with the ability to breathe more easily, increase circulation, balance hormones, and relieve aches and pains. As the structure of your body opens up, this will allow you to better enjoy more vigorous classes and activities.
