

# FOREST PARK

Forest Park is a 39 acre conservation area that is located on Forest Park Road. The easiest way to access these trails is by parking on the top field at Weafer Park (Softball Field). There is plenty of space to park and the trail starts right at the red gate as shown in picture #1. The trails are mostly covered in leaves but are still manageable to make out as you can see. There are two separate trails in this area as shown in picture #3. Trail #1 will lead you on a winding walk to the Main Street gate (#4) which is about a 5-7 minute walk. Trail #2 will lead you up a hill and around past the softball field and you will end up coming out down the bottom of Weafer Park, which is the baseball field (pictures #5-7). Walking each of these trails can take up to 15-20 minutes and would be a great addition to a walk around the neighborhood if you live near Weafer Park. (Brentwood Rd., Intervale St., Susan Ter., Thomas St., etc.)
